

# Come ride with me in Iceland!

**2016 is in the works**

At the end of our first day riding in Iceland, July 1995, I told myself – and my friends – that I couldn't ever leave these horses and the land they live in! While it didn't literally happen that way, I've spent most of my time since then sending travelers to this unique little island of fire and Ice!

Lucky me – I still get to ride in Iceland, but never quite enough. So for the summer of 2015, I've lined up a great riding adventure – and I'd love to share them with you!

I've chosen a great ride through the varied landscape of southern Iceland. Included are flights to Iceland, transfers, hotel accommodations, meals, helmets and raingear for the ride, and a few extras as well. Also, there's our guide to Reykjavik, and plenty of useful info about the horses, people and landscape that you'll visit. I'll show you around, too!
